

Grandparents' Day

13th December 2016

What a fantastic day! Our ever-popular Grandparents' Day was even more successful than last year, with a whopping 493 grandparents in attendance! As we had so many lovely visitors, we needed to split the day into two sessions (9.30am-11am and 1.30pm-3pm).

The day ran smoothly as we had lots of fun activities planned including a Christmas quiz and a snowman drive. Our Christmas quiz involved lots of seasonal questions that required the brain power of both the children and the grandparents! Our snowman drive was just like a beetle-drive, however the end product was a festive snowman. Grandparents and grandchildren had to work together against other competitors to roll the dice and acquire all the parts of the snowman in order to be crowned Snowman Drive Champions! Each class developed their own crafty activity too which may have required some problem solving, PVA glue and sequins!

We would like to thank all the grandparents who attended to make our day truly special and memorable. It was lovely to see the children interacting with (and being little angels for) their grandparents! We look forward to doing it all again soon!
